

*"Without a dream a person has no purpose, without a purpose an individual has no goals, without a goal to strive towards, a life has no direction. Having a dream and working toward that dream gives ones' life a goal, a destination, a purpose, and best of all - meaning."*

## At SouthCoast you can create a new and Brighter Future

At SouthCoast Recovery, we provide a unique, affordable alternative to the traditional treatment of substance abuse. SouthCoast offers a comprehensive array of chemical dependency and dual diagnosis services. Our program integrates philosophies from the medical, psychological, whole body and self-help communities. We recognize a simple truth: Each of us exists as body, mind and spirit. Only when the whole person is treated - not just the symptoms - can recovery truly begin. We find that having an addiction causes one to act out in all areas of their life. We will not enable a client to act out in their old behaviors, but demonstrate the right actions that will carry them in the right direction. The most important thing a person needs to succeed in recovery is the willingness to do the work necessary to build a new life.

### Our Objective

Ultimately, our objective is to "Turn a life around". We offer a dynamic place where individuals address all of the facets vital to their recovery. We strive to replace bad habits with positive actions and redirect the client to live life fully. We incorporate a value based life philosophy that becomes the basis for an attitude of action leading to a higher quality of life. Clients need a supportive environment to learn life skills and regain their maximum cognitive function.

SouthCoast Recovery adheres to the following values:

- We are committed to client satisfaction
